## 1. Correlation analysis of educational resources (faculty and courses) and student employment

Dashboard designed for university administrators

- 1.1 Graduate Employment Competitiveness Score (GECS)
- 1.2 Relevance between GECS and [Faculty](#)
- 1.3 Relevance between GECS and [Courses](#)
- 1.4 Relevance between GECS and [Academic Performance](#)

## 2. University Education Quality Scoring Methodology

Dashboard designed for applicants

- 2.1 Faculty-to-student ratio
- 2.2 % of faculty with PhD and above
- 2.3 Total number of papers
- 2.4 Mean GECS
- 2.5 Mean Tuition

## Graduate Employment Competitiveness Score (GECS)

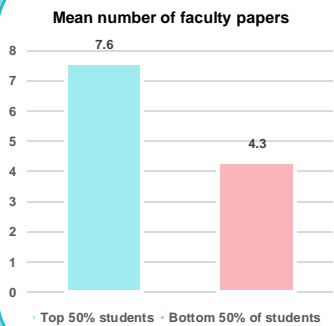

Ranking	Score	Student ID	Employment or not (10%)	Employer Reputation (40%)	Salary (30%)	Promotion or not (20%)
1	97	0010001	Yes	Top 100	55w\$/y	Yes
2	94	0035435	Yes	Top 100	45w\$/y	Yes
...	...	...	...	...	...	...
100	0	0034253	No	None	0	No

## Relevance between GECS and Faculty

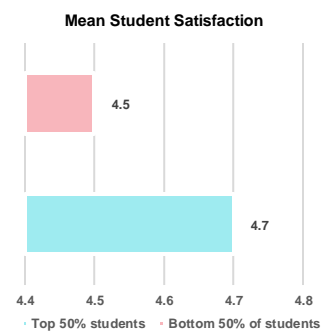

### % of educational background

### Number of papers

### Student Satisfaction

## Relevance between GECS and Courses

### Course Capacity

### % of related courses

### % of offline courses

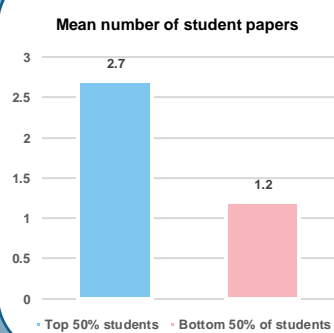

## Relevance between GECS and Academic Performance

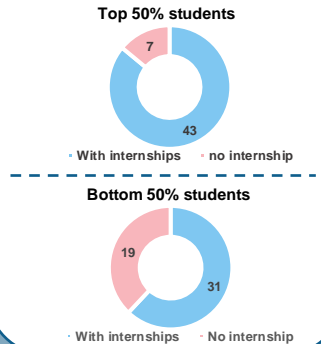

### GPA

### Number of papers

### % of got Internships

Note: Assuming 100 students data (12 courses and 8 faculty per student, GPA out of 4.0)

# Graduate Employment Competitiveness Score (GECS)

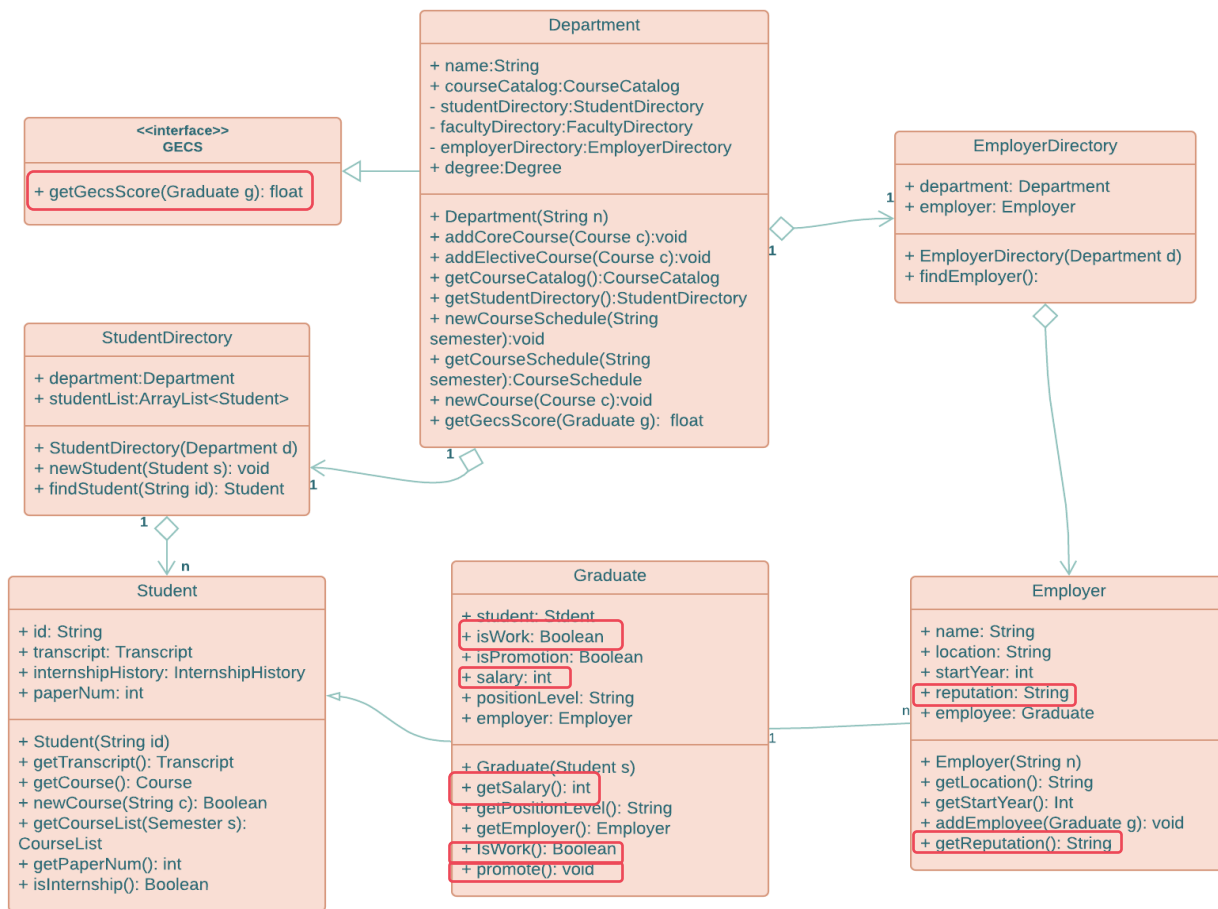

Graduate Employment Competitiveness Score (GECS)

Ranking	Score	Student ID	Employment or not (10%)	Employer Reputation (40%)	Salary (30%)	Promotion or not (20%)
1	97	0010001	Yes	Top 100	55w\$/y	Yes
2	94	0035435	Yes	Top 100	45w\$/y	Yes
...	...	...	...	...	...	...
100	0	0034253	No	None	0	No

Scoring Criteria

Employment or not		Employer Reputation		Salary		Promotion or not	
Yes	100	Top100	100	>=50w\$/y	100	Yes	100
		Top200	95	>=40w\$/y	95		
		Top300	90	>=30w\$/y	85		
		Top400	85	>=20w\$/y	75		
		Top500	80	>=10w\$/y	65		
		500+	75	<10w\$/y	60		
No	0						

$$\text{GECS} = \text{Employment or not} \times 10\% + \text{Employer Reputation} \times 40\% \\ + \text{Salary} \times 30\% + \text{Promotion or not} \times 20\%$$

# Relevance between GECS and Faculty

## Relevance between GECS and Faculty

### % of educational background

#### Top 50% students

#### Bottom 50% students

### Number of papers

#### Mean number of faculty papers

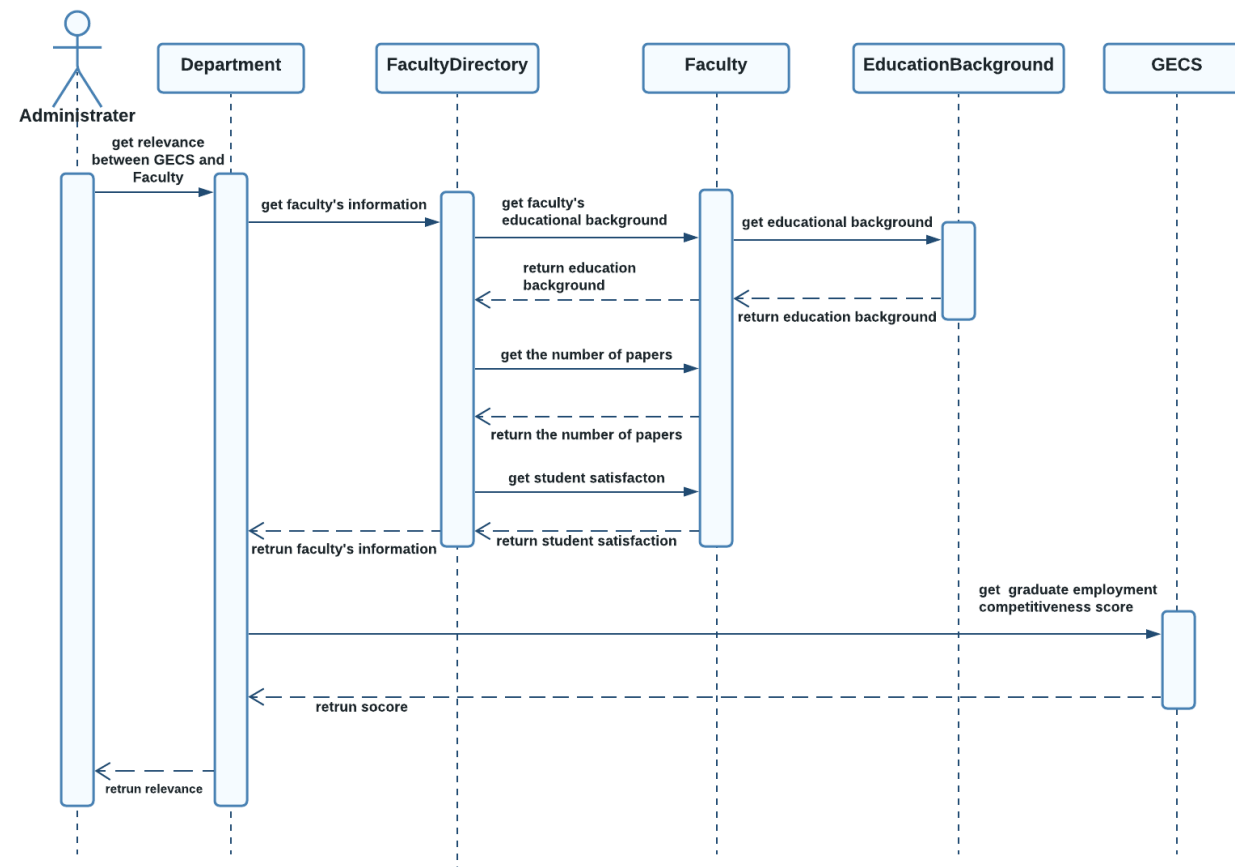

### Student Satisfaction

#### Mean Student Satisfaction

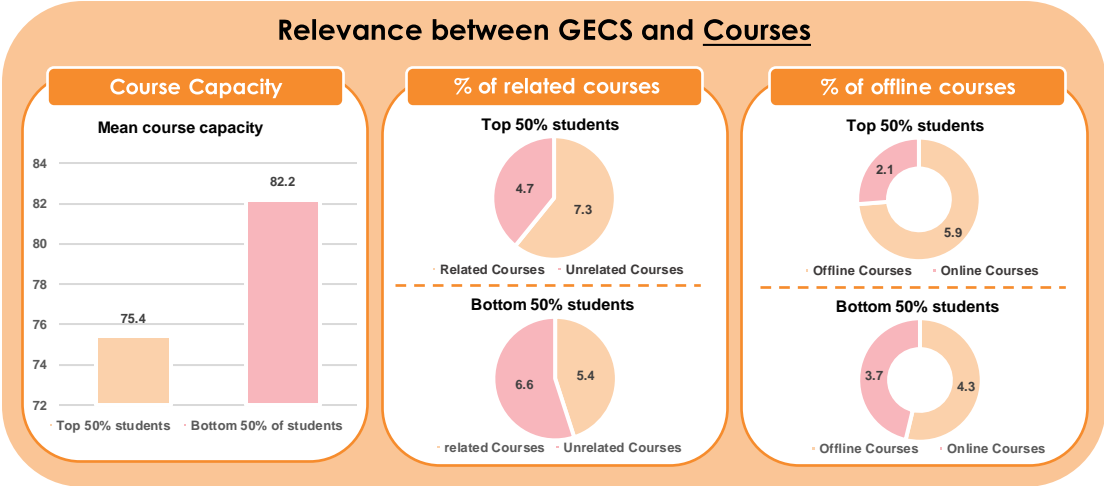

- Students are divided into two parts by the top 50% and bottom 50% of the GECS ranking.
- Show the difference between all of their teaching faculty in terms of percentage of Ph.D. and above, mean number of papers, and mean student satisfaction.

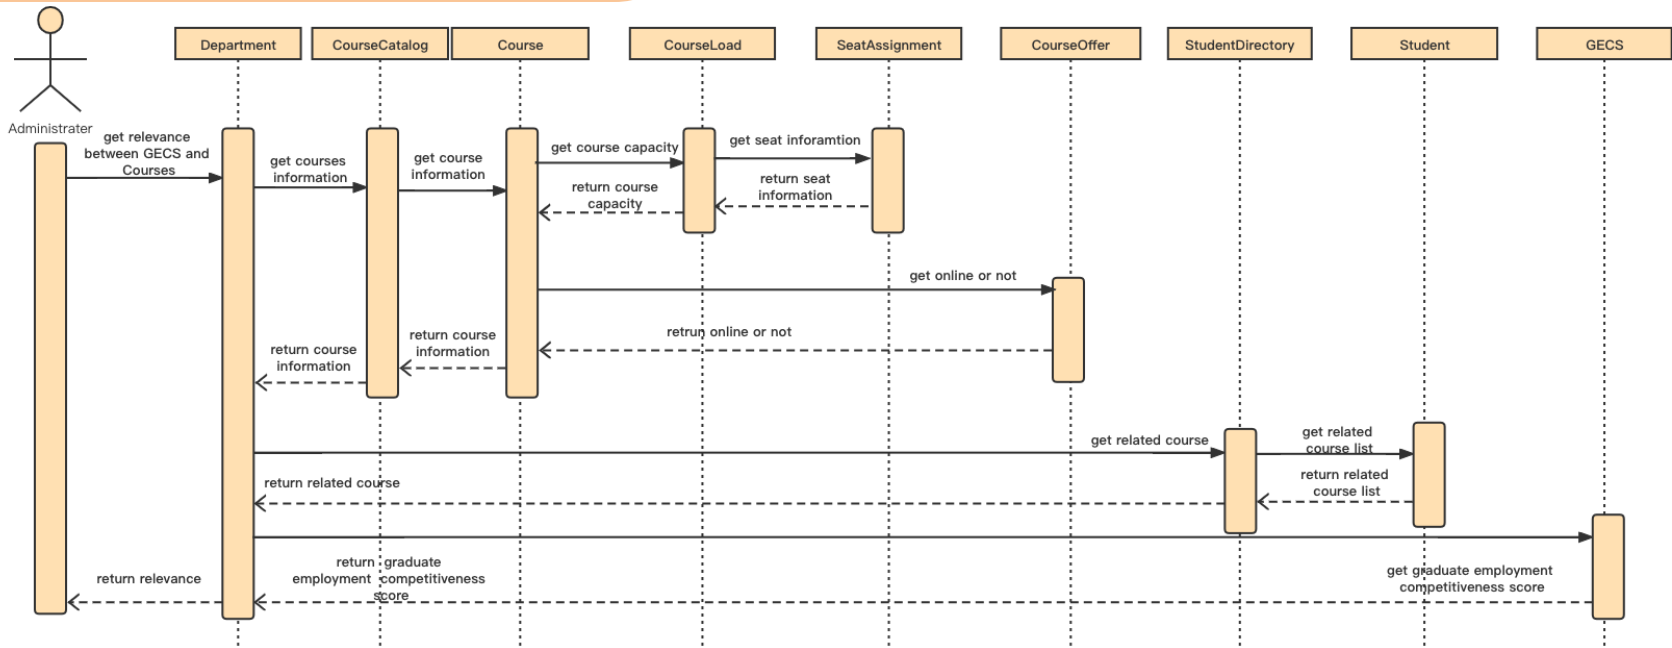

# Relevance between GECS and Courses

- Students are divided into two parts by the top 50% and bottom 50% of the GECS ranking.
- Show the difference between all their courses in terms of mean course capacity, percentage of relevant courses, and percentage of offline courses.

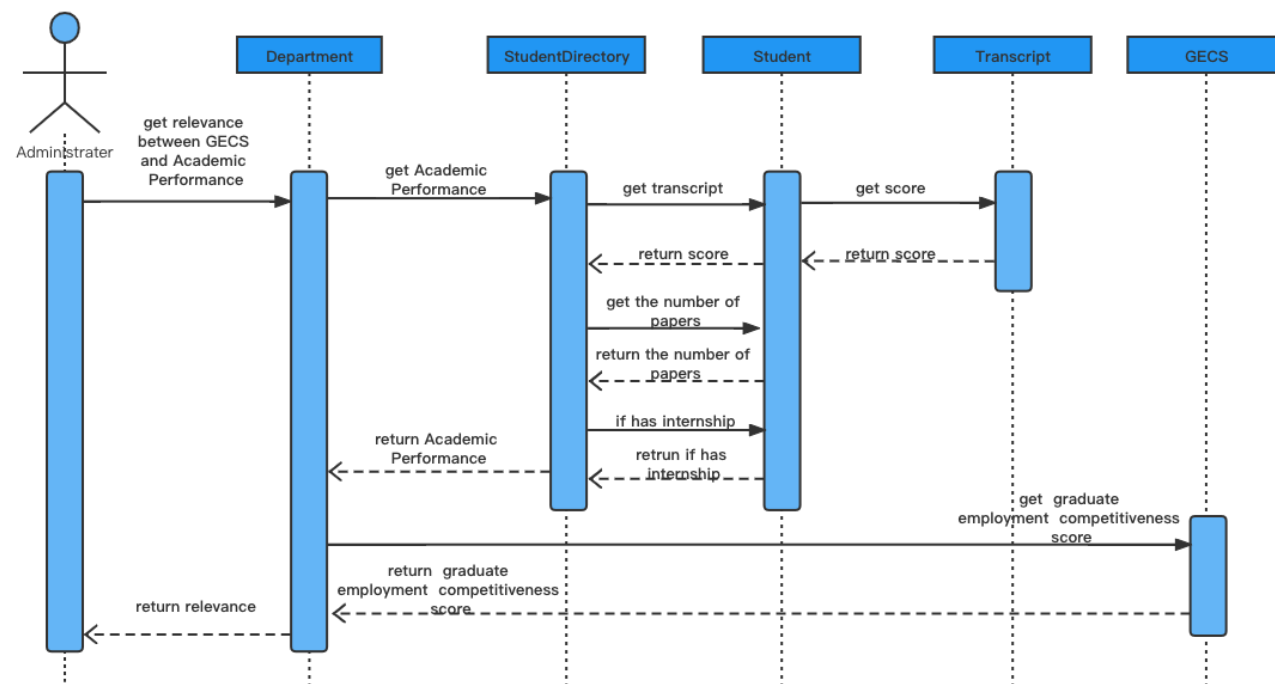

Note: Assuming 100 students data (12 courses and 8 faculty per student, GPA out of 4.0)

# Relevance between GECS and Academic Performance

- Students are divided into two parts by the top 50% and bottom 50% of the GECS ranking.
- Show the difference in their mean GPA, mean number of papers, and percentage of got internships.

# University Education Quality Scoring Methodology

Dashboard designed for applicants

# University Education Quality Scoring Methodology

—Dashboard designed for applicants

Education Quality Score of XXX University: **84**

Scoring Criteria					
Individual score	Faculty-to-student ratio	% of faculty with PhD and above	Total number of papers	Mean GECS	Mean Tuition
100	>=0.25	>=0.85	>=300	>=80	<=4w\$
90	>=0.20	>=0.80	>=250	>=75	<=5w\$
80	>=0.15	>=0.75	>=200	>=70	<=6w\$
70	>=0.10	>=0.70	>=150	>=65	<=7w\$
60	<0.10	<0.70	<150	<65	>7w\$

**Education Quality Score** = Faculty-to-student ratio×20%  
+ % of faculty with PhD and above × 20%  
+ Total number of papers × 20%  
+ Mean GECS × 30%

Note: Assuming 100 students data (12 courses and 8 faculty per student, GPA out of 4.0)

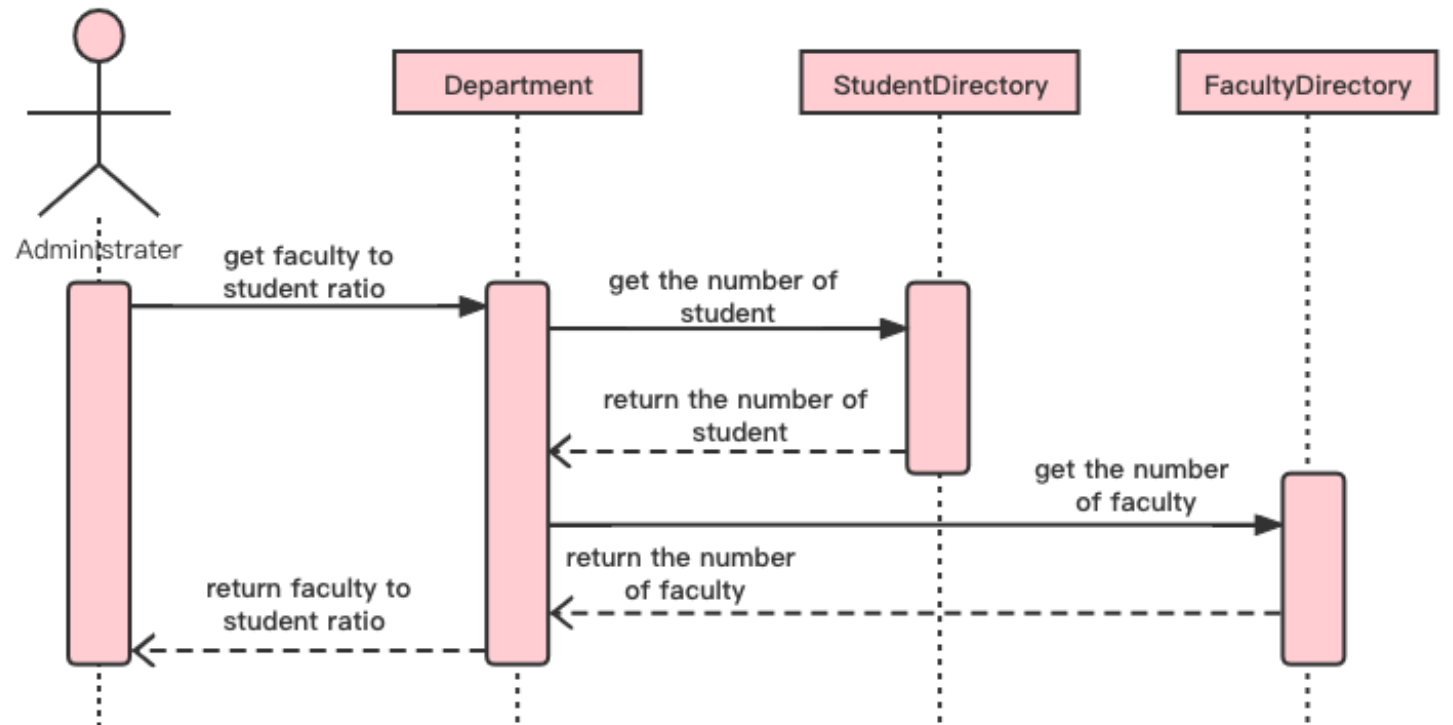

2.1

## Faculty-to-student ratio

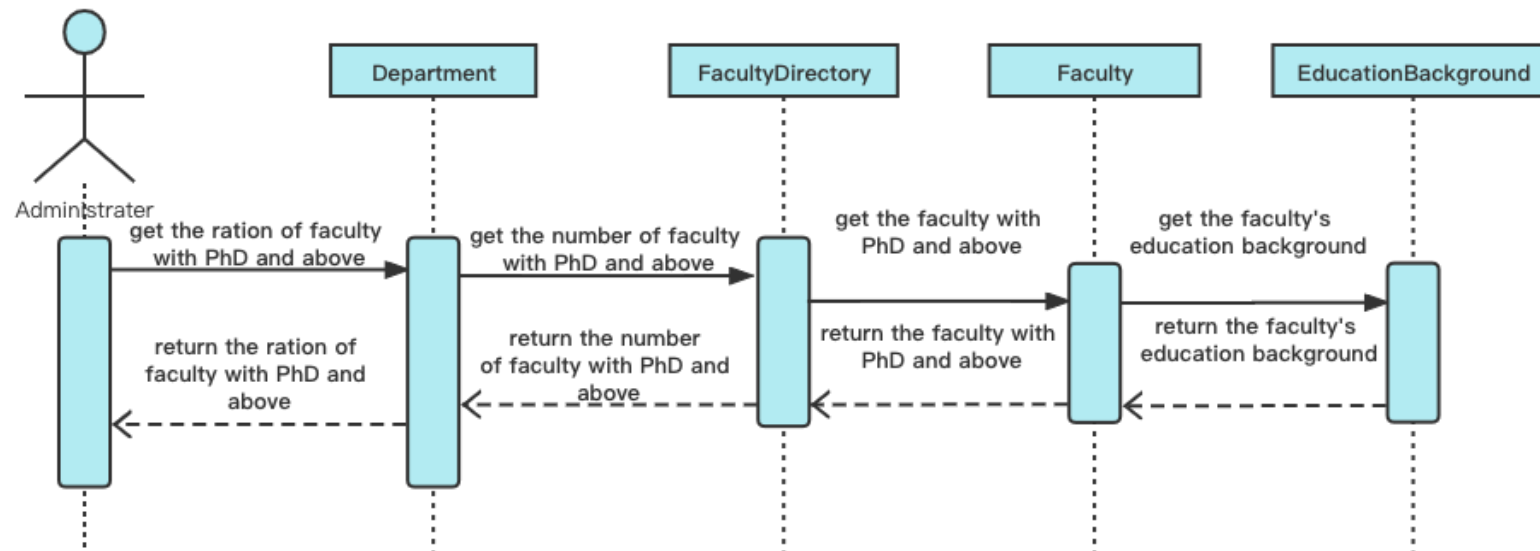

$$\text{Faculty-to-student ratio} = \frac{\text{Number of faculty}}{\text{Number of students}}$$

2.2

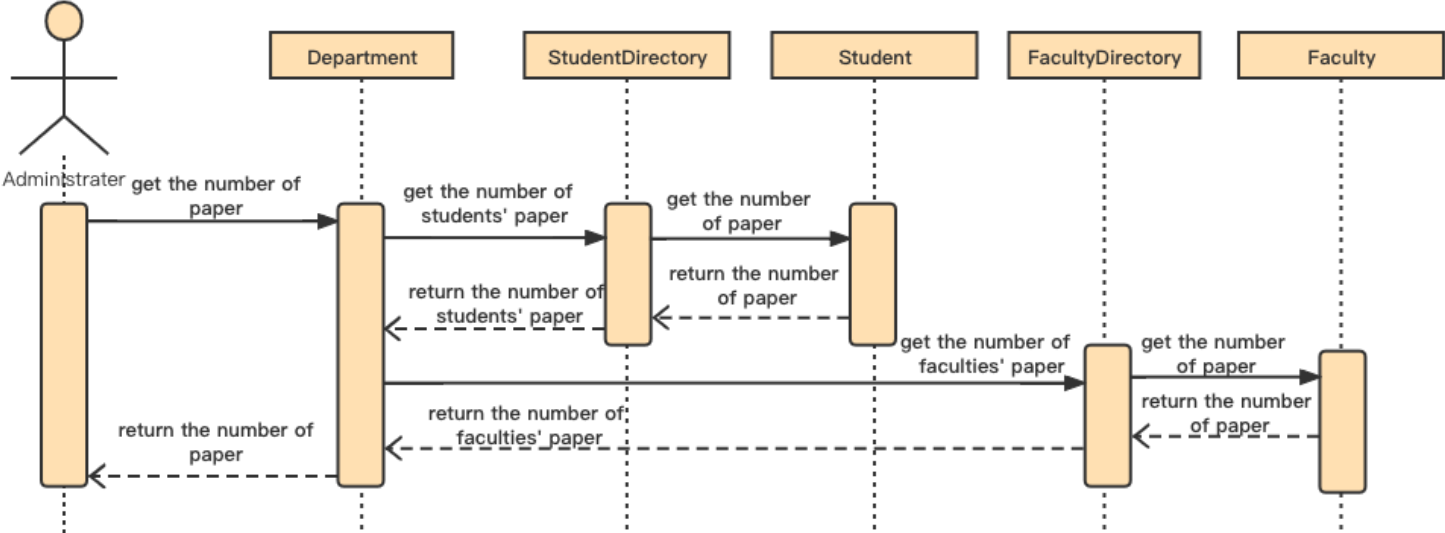

## % of faculty with PhD and above

$$\text{\% of faculty with PhD and above} = \frac{\text{Number of Postdoctoral} + \text{Number of PhD}}{\text{Number of faculty}}$$

# 2.3 Total number of papers

**Total number of papers** = *Number of student papers* + *Number of faculty papers*

Note: Assuming 100 students data (12 courses and 8 faculty per student, GPA out of 4.0)

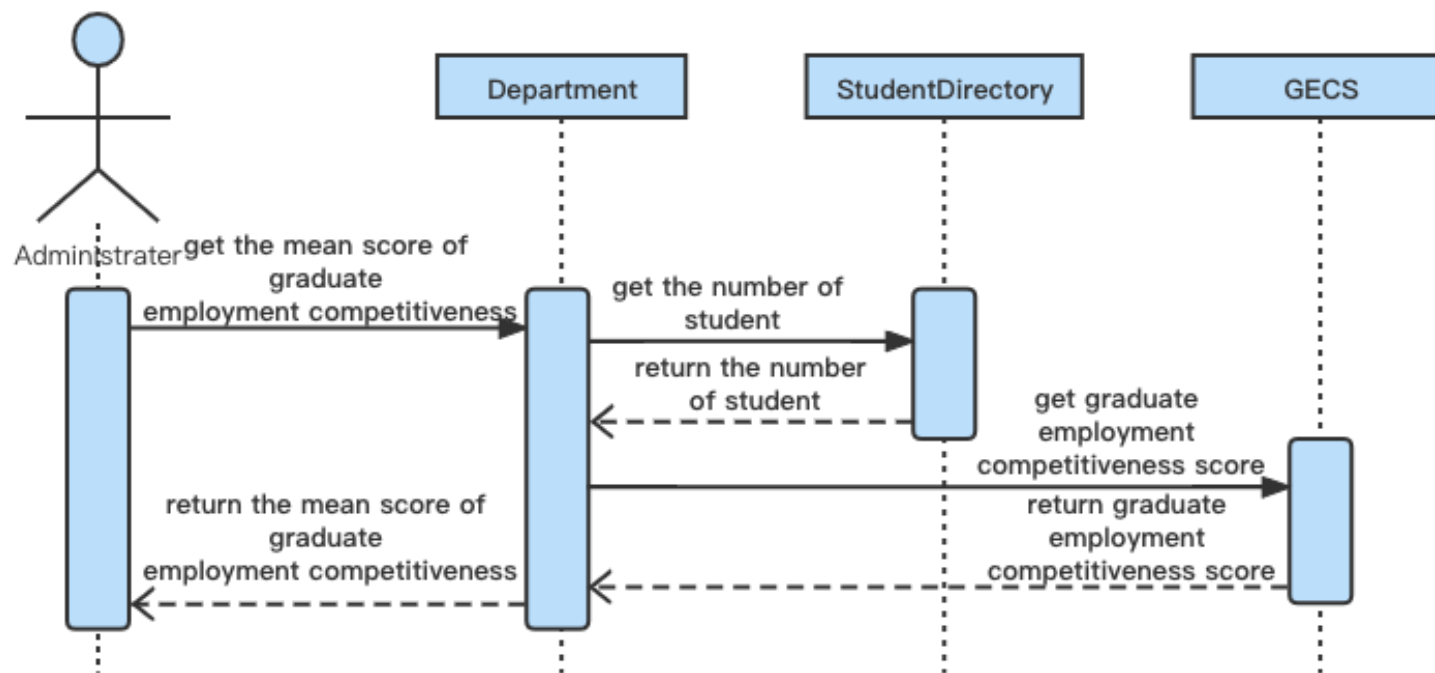

2.4

## Mean GECS

$$\text{Mean GECS} = \frac{\text{Total GECS}}{\text{Number of Students}}$$

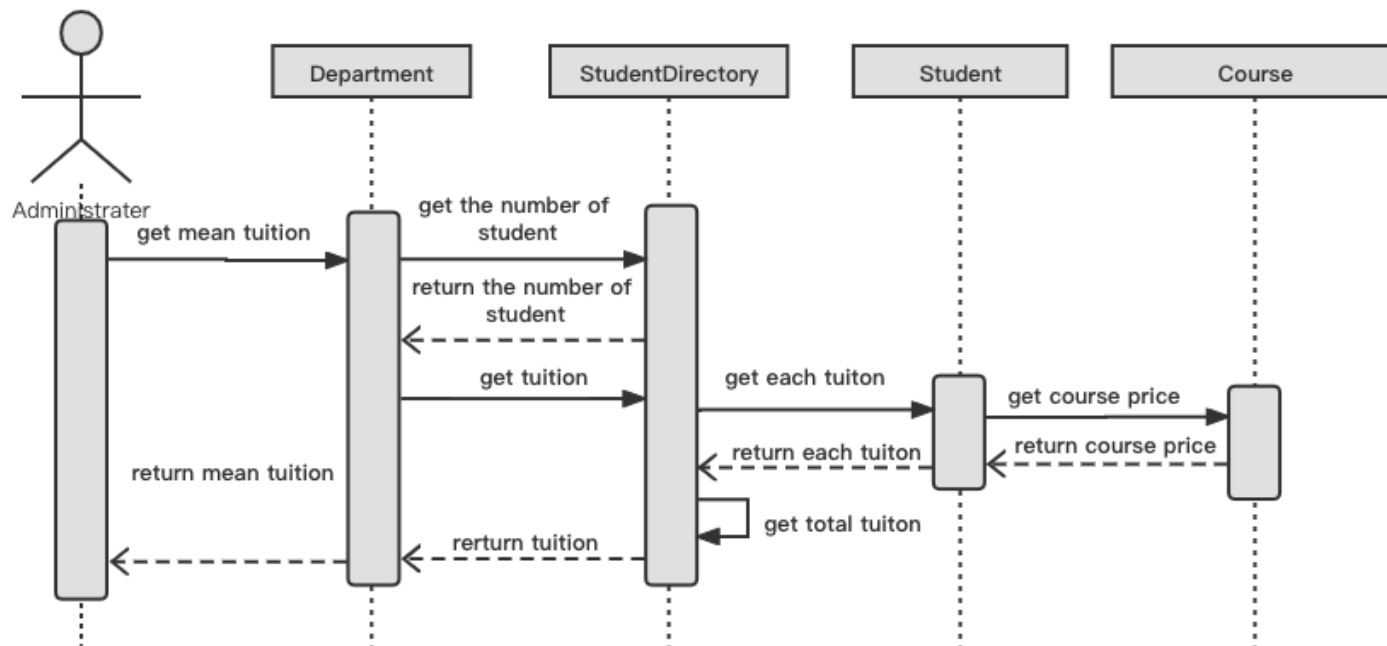

## Mean Tuition

$$\text{Mean Tuition} = \frac{\text{Total tuition}}{\text{Number of Students}}$$

# Thanks!
